

**Agreement for Memorandum of
Understanding**

**Between the Korean Society of Diagnostic and Interventional Nephrology
(KSDIN) and the Japanese Society for Dialysis Access (JSDA)**

1. Proposal

Develop a MOU between the Korean Society of Diagnostic and Interventional Nephrology (KSDIN) and the Japanese Society of Dialysis Access (JSDA)

2. Purposes

This purpose of this MOU is to explore avenues to increase collaborations that are mutually beneficial to both the societies and help to improve patient care and outcome, training, education and research in the field of dialysis access.

3. Proposed activities

- a. Develop a mechanisms to encourage a mutual exchange of delegates between the societies during the annual/biennial meetings
- b. The number of delegates from KSDIN will be invited to attend the annual meeting of JSDA. In exchange KSDIN will invite delegates from JSDA to attend the KSDIN annual meeting
- c. The host society will provide complimentary registration and hotel accommodations for attending delegates. Delegates will be responsible for all other travel expenses.
- d. The host society may choose to invite the delegate(s) to deliver lectures on state of the art topics that are suitable for their scientific program from one or both guest societies.
- e. The host society is not expected to offer pay an honorarium for lectures from the invited delegates
- f. Both societies will mutually disseminate information regarding the annual meetings and encourage membership participation in the meetings
- g. Both societies will explore avenues to increase mutual collaboration to enhance research, education and patient care activities related to the field of dialysis access
